

ELNET MOBILIZES EUROPEAN SUPPORT FOR ISRAEL'S SECURITY

ELNET, the most influential pro-Israel advocacy organization in Europe, has had a profound impact on securing critical European support for Israel's war effort. This work can't be done overnight — it is a result of many years of ELNET's sustained relationship-building with key European decision-makers.

ELNET's professional teams across our regional offices in Belgium (EU and NATO), France, Germany, Italy, Poland (Central & Eastern Europe), the UK, and Israel work with top officials across Europe's political spectrum to bolster Israel's security.

What has ELNET done since October 7th?

- Organized more than 20 emergency solidarity missions to Israel from 22 European countries
- Escorted over 200 European legislators to Israel for briefings and meetings
- Accompanied 10/7 survivors and hostages' families to testify before six European parliaments and governments
